H2o CLUB

ABOUT US:

This club was initially sparked by the Department of Mechanical Engineering and originated with the support of student's interest towards awareness and the need of the society. H2O Club is the art of connecting yourself to the society in need, to sense their emptiness. The club urges to help the people in need and make the society a better place to live in. The more you give, the more you receive.

The Club activities and the initiatives were coordinated by a staff member with the support of students. The student Chairmen and secretary were appointed from IV th and III rd year students.

OBJECTIVES:

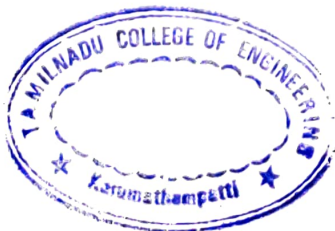

1. To generate awareness about environmental issues in the context of sustainability and social responsibility.
2. To cultivate giving nature in students for the needed people.
3. It focuses on sustainable development and charity work with the passion for volunteerism and inciting change.
